HITACHI

Servicing the motor
industry since 1958

Pentair Water, in partnership with Hitachi Motors, offers the most diversified selection of submersible motors in the industry!

6" and 8" Motors

- 5 - 50 HP, 6" Motors, 3600 rpm, 200V, 230V and 460V, 1- and 3-phase
- 50 - 60 HP, 8" with 6" motor flange, 460V
- 40 - 150 HP, 8" Motors, 460V

Large 8" - 14" Motors

- 200 - 300 HP, 10" - 12" Motors, 3600 rpm (2-pole)
- 7.5 - 300 HP, 8" - 14" Motors, 1800 rpm (4-pole)

Fast Shipping

- Available SAME DAY from four Pentair Distribution Centers in the US – Fresno CA, Grand Island NE, Delavan WI, and Jacksonville FL.
- Motors not stocked at your nearest facility will be drop shipped from another stocking location.

Pre-Paid Freight

- Pre-paid freight to distributor location on one or more motors.
- If motor order is combined with other Pentair Water products, standard pre-paid freight terms apply.

Motor Features

- 5 - 30 HP, 3-phase motors are DUAL VOLTAGE. Voltage plugs are interchangeable between 230V and 460V motors
- Sand-resistant double lip seals, grease packed for harsh, sandy well conditions
- Motor leads are double insulated and color coded
- 50 and 60 HP motors are available in a 6" flange x 8" motor design for best performance and durability
- Premium "capacitor start – capacitor run" control boxes provide quieter and smoother operation on 1-phase motors, UL recognized
- Large Kingsbury-type thrust bearing for long life
- NEMA pump mounting flange and shaft stickup will mount to any pump
- Epoxy resin insulation for excellent heat conductivity

Warranty

- One source warranty through Pentair Water. Warranty periods are as follows:
 - 12/18* - Motor only standard warranty
 - 24/30* - Motor and BERKELEY pump extended warranty
 - 36/42* - Motor, BERKELEY pump, control box or PENTEK PPC Series VFD's (with KLC Line Filters) extended warranty

*Example: 12/18 – 12 months from date of installation, 18 months from purchase
